

For more than thirty-five years, Reza has photographed the silent heroes of our humanity, these destinies crossed on the roads of the world who taught him that solidarity is the foundation of our societies, and that we have the responsibility to spread this message. Thus, every dialogue, every exchange, will be the mouthpiece of our family: the Human Family.

As one of the photo sponsors of the 21st edition of the Photo Montier Festival , Reza will present the exhibition “One World, One Tribe” at the COSEC and will propose a conference entitled “The Nature of Humans” on November 18, at 2P.M.
